ORDINANCE HEARINGS

This time and place having been set and notice advertised for the purpose of considering the final passage of the following ordinances:

The City Clerk called for anyone who might desire to protest against the passage of said ordinances. No one appeared to protest and no written protests were received.

Commissioner Fagen moved the passage of the following ordinances:

By Mayor Hague:

Resolved, That the following ordinance do now pass:

PUBLIC NOTICE

An ordinance to regulate the conduct of laundries in the City of Jersey City.

Be it ordained by the Board of Commissioners of the Mayor and Aldermen of Jersey City, as follows:

Section 1. General Provision: It shall be unlawful for any person, firm or corporation to conduct a laundry in the City of Jersey City, without having first obtained from the Health Office of said city a license for that purpose, such license to be issued by the Health Officer of Jersey City, upon the payment of a fee of twenty-five dollars ($25), after approval of an application made to conduct each establishment as hereinafter provided.

Section 2. Laundry: Any place, building, structure, room, establishment, or portion thereof, which is used for the purpose of washing, drying, starching, or ironing shirts, dresses, underwear, collars, cuffs or other wearing apparel, table, bed or other household linens, towels, curtains, draperies or other washable fabrics, such work being done for the general public for profit, shall be deemed a laundry and subject to the provisions of this ordinance.

The word "Laundry" as used in this ordinance shall also be held to include any private laundry maintained or operated in connection with any hotel, restaurant or public institution, except a hospital or charitable institution where no charge is made for laundry services.

The provisions of this ordinance shall not apply to any female engaged in doing custom laundry work at her home for a regular family trade, nor to any room, rooms or portion thereof, located in a tenement house or other dwelling, in which domestic laundry work is done by or for the occupants of such building exclusively.

Sec. 3. Application—The application for a license to conduct a laundry shall be made in writing and shall state the maximum number of persons to be employed therein, the kind of laundry

work to be done, a description of the premises where the work of laundering is to be done, and the number of cubic feet in the structure or rooms where such work is to be done.

Sec. 4. Fee.—For every license issued under the provisions of this ordinance for the establishment, maintenance or operation of any laundry there shall be paid to the Mayor and Aldermen of Jersey City by the applicant a fee of twenty-five dollars ($25.00) per annum. All such licenses shall expire on the first day of May of each year.

Sec. 5. Penalty.—Any person, firm or corporation that shall hereafter conduct, carry on or operate a laundry without first procuring a license so to do shall be subject to a fine of not less than twenty-five dollars ($25.00) nor more than one hundred dollars ($100.00) for each offense, and each day or fraction of a day on which such persons, firm or corporation shall operate any such laundry without a license shall be construed as a separate and distinct offense, and any complaint made for any violation of any of the provisions of this ordinance shall be cognizable before any of the police courts of Jersey City, who shall have jurisdiction to determine such cause.

Sec. 6. Registration.—Every person, firm or corporation conducting a laundry business in Jersey City shall register the name or title under or by which said business is known, together with the address, where the business is carried on. If said laundry is known under a trade name there shall be regisistered as well the names of the individuals comprising the firm as well as their addresses, and if a corporation, the names and addresses of the directors and the agent upon whom process may be served. This provision shall apply to all laundries governed by this ordinance, provided that if the owners or operators are non-residents of this city, all such shall name a person resident of Jersey City upon whom process may be served.

All registration shall be made in the office of the Health Board of Jersey City within thirty (30) days after the passage of this ordinance and in case of removal, such new registration shall be made within ten (10) days thereafter.

Section 7. Licensing Board: All applications for a license under this ordinance shall be determined after investigation and inspection of the premises intended for use as a laundry. Such investigation and inspection shall be made by the Health Officer and Medical Inspector of the Health Board of Jersey City, together with one practical laundry man appointed by the Board of Commissioners of Jersey City, who shall serve without compensation, and this body of three shall be known as the Examining and Licensing Board, which board is hereby created.

Section 8. Inspection: It shall be the duty of said Board to regularly inspect all licensed laundries as to the sanitary conditions prevailing therein, and such Board shall have the power to recommned and order changes in any laundry establishment where conditions are not in keeping with the general sanitary requirements of the Health Board of Jersey City, and any failure to comply with the order of said Board within a reasonable time shall be reported to the Board of Commissioners of Jersey City, who may revoke the license of the offending person, firm or corporation.

Section 9. Revoking of License: If it appears to the Board of Commissioners of The Mayor and Aldermen of Jersey City that any person, firm or corporation conducting a laundry in Jersey City shall refuse or neglect within a reasonable time under the circumstances of the case to comply with the order of the Examining and Licensing Board as to bettering sanitary conditions in any such laundry, the Board of Commissioners may, after hearing the said person, firm or corporation, order a revocation of said license absolutely or until such time as the conditions complained of are remedied.

Section 10. Display: All licenses granted to laundry men shall be prominently displayed in the establishment where the work of laundering is carried on.

Section 11. Non-Residents: Any person, firm or corporation maintaining a laundry establishment outside of the territorial limits of Jersey City may contract to do laundry work for residents of Jersey City, but shall, in the interests of public health, be compelled to maintain the same standard of sanitary and health conditions as is required in the case of laundries maintained and operated within the territorial limits of Jersey City, and therefore shall apply to the said Examining and Licensing Board, and the said Board having made examination and investigation of such establishment, shall issue to such person, firm or corporation, providing the sanitary conditions of such establishment are substantially the same as those required by the health rules of Jersey City, a certificate of competency to do such work, and such laundries located outside of Jersey City shall conform to and be governed by the provisions of this ordinance. Such laundries shall not be entitled to a certificate of competency unless the establishment where such work is to be done shall be clean and sanitary; the certificate of competency when issued shall be not assignable, and may be cancelled by the same procedure as is set out in this ordinance for the cancellation of a license of a resident laundryman. All such persons, firms and corporations shall nominate and constitute a resident person upon whom process may be served for the making of complaints concerning the violation of the provisions of this ordinance.

Section 12. Issuance of Licenses: Upon compliance with the provisions of this ordinance, a license shall be issued to all existing laundries in the City of Jersey City, and certificates of competency to laundries located outside of Jersey City above mentioned will also be issued by the Health Board, and a charge or fee of twenty-five dollars ($25) shall be paid for each certificate of competency issued.

Section 13. No person, firm or corporation shall expose the sign of laundry or a sign containing similar import and meaning in Jersey City, unless such person, firm or corporation shall first have obtained a license as herein provided.

Section 14. This ordinance shall take effect immediately.

Sec. 2. Applicants shall state in full detail the purposes for which the supply is required, with correct street address, lot and block number of the premises.

Sec. 5. In all cases where any unusual attachments, fixtures or alterations are desired, or which shall require the supply of an unusually large quantity of water, application shall be made to the Permit Clerk upon blanks to be furnished by him. The application shall be subject to the approval of the Water Conservator before any special permit is granted.

Sec. 6. All alterations, extensions or additions to any plumbing work either in old or new buildings without proper permit therefor shall be charged against the premises as of the time when made.

Sec. 7. The applicant shall be liable for the amount of water used in conformity with the schedule of rates or tariffs as hereinafter provided.

STREET OPENINGS

Sec. 8. No street, alley or other public place shall be opened for the purpose of laying down any service pipe or doing any work, or making repairs in or about any service pipes or fixtures without obtaining written permission from the Permit Clerk authorizing the same. Such openings shall not interfere with vehicular or pedestrian traffic.

Sec. 9. In opening streets that are paved, the pavement taken therefrom shall be kept separate from the earth and piled at the curb in such a manner that the same shall be no obstruction to pedestrians. The other materials excavated shall be filled in, and the pavement replaced to correspond with the rest of the street.

Sec. 10. Trenches or excavations shall not be left open at night, except in case of necessity, when a lighted lantern shall be placed over such trench or excavation, from twilight until daylight, and shall be properly railed in, so as to prevent accidents.

Sec. 11. The filling of trenches to the surface of the street shall be completed in a good and workmanlike manner immediately after inspection shall have been made, and the same shall be kept in order for the space of six months thereafter by the plumber.

Sec. 12. On failure to comply with the above provision, the City shall make the repairs, charging the cost of same to the plumber who first made said opening and the Permit Clerk shall refuse to grant any further permits to said plumber until the cost of same shall have been paid in full.

Sec. 15. When filling trenches, the earth or sand shall be rammed or

soaked with water from the commencement of the filling until completed, in order that all the materials taken out may be returned. In case of rock excavation, no stone filling shall be allowed; earth or sand shall be used instead; and in no case shall the service pipe be laid in the same trench with a sewer connection, or any other work, without a special permit being first had and obtained.

Each new service pipe shall be laid in a straight line from the main to the property line or to within the building line, at right angles to the street mains to which it is connected, except that where the sub-surface conditions make it impracticable the service pipe may be otherwise laid upon the approval of the Water Conservator of the plans submitted by the plumber showing the proposed location of the service pipe.

Sec. 20. The services shall be laid at a depth of at least 4 feet below grade. Where the service pipe has less than 4 feet of cover, because of subway ducts or other sub-surface condition preventing the service being laid at this depth, it shall be protected by a covering of 1 inch of felt cover and tar paper or other suitable waterproof material. Where constant exposure to frost exists, the service shall be further protected by additional covering of felt and protected with a metal sleeve or wooden box at the direction of the Water Conservator.

Sec. 26. Service pipes in buildings shall be located in such parts thereof as are best protected from frosts.

Sec. 27. In all exposed locations the

service pipes, fixtures and meters shall be properly wrapped or packed with felt, mineral wool or other non-conducting material or substance, if necessary, to protect sai dservice, etc., from freezing.

Sec. 28. It shall be the duty of the plumber performing labor in and about any water service pipe to protect the same from frost. He shall not be released from the responsibility thereof by having the owner of the premises or others do the work for him.

Sec. 29. The owner of the property into which water is introduced by a service pipe shall be required to maintain in perfect order at his own expense the said service pipe from the main to his premises, including all fixtures therein provided for delivering or supplying water for any purpose.

Sec. 30. No person shall tap or connect any water main or insert a stop-cock therein excepting employes of the Bureau of Water duly authorized to do so.

Sec. 31. No person other than an employe of the Department shall open or close any valves in the public main, or molest or interfere with any valve or valve box cover.

Sec. 32. Where a service line has been previously installed from the supply main to the curb, and water is desired therefrom, an application for an extension permit must be signed by the owner or a licensed plumber of the City of Jersey City, authorized by the owner of the premises.

Whereas, It is with profound sorrow that we learn of the passing of Rt. Rev. Monsignor John A. Sheppard, Vicar-General of the Diocese of Newark and Rector of St. Michael's Roman Catholic Church of this City. His loss will be felt not only by the great Church of which he was so ardent a member, but by all of the people of Jersey City of whatever religious denomination. He was a man of sound judgment and was fearless in his utterances. He took a great pride in civic affairs and was ever ready and willing to promote the welfare of the City and its citizens. By Commissioner Fagen:

Whereas, this Board met to hear, consider and adjudicate objections which might be presented against the final assessment map and report for the construction of a main sewer and laterals in the Fisk Street drainage area conformable to the provisions of Chapter 152 of the Laws of 1917 and the various supplements thereto and amendments thereof and

Whereas, objections were presented against the confirmation of said map by Mrs. Goehner, C. J. Guterl, W. C. Chamberlain, Anna M. Brickner and Marcus E. Joffee as attorney for Jersey City Baseball Park Property, and

Whereas, said hearing was adjourned from time to time and

Whereas, at meeting held the 27th day of January, 1925, the Director of the Department of Streets and Public Improvements, to whom said objections were referred, reported as follows:

"While the property of Mrs. Goehner, known as lots 131-133-135, Block 1777, is not emptying directly into the Fisk Street outlet, it is indirectly receiving the benefit of the outlet by connecting with the sewer in Grant Avenue and the Commissioners of Assessment, in making the assessment, took this into consideration, and would recommend that, for the above reason the objections be not sustained.

"With reference to the objections of C. J. Guterl, owner of Lot 4A, Block 1282D, Boulevard; W. C. Chamberlain, owner of Lot 4C, Block 1282D, Boulevard, and Anna M. Brickner, owner of Lot 2, Block 1282B, would state that these lots are within the drainage area of the Fisk Street sewer and while it is a fact that said lots do now sewer into another area, these properties in question have not paid for that privilege. The privilege of connecting with another area was granted as a matter of convenience for the property in question. The property in question is sewered by a private drain. If a public sewer was to be built so as to drain this property and empty the sewage directly into the Fisk Street outlet, it would entail an expense of perhaps in the neighborhood of $250 for each 25 feet, Therefore, these property owners are saving a difference between the assessment for prospective benefit as levied and that amount, namely, approximately $250, it would cost to construct a public sewer as referred to. The Commissioners of Assessment therefore determine that, as these lots have not paid for the outlet which they are now using, they should pay for the outlet into which they should drain, namely Fisk Street area. Would recommend that, for the above reasons, the objections be not sustained.

"The objection of Marcus E. Joffee, as attorney for Jersey City Baseball park property, would recommend that this objection be not sustained for the reason that the assessment in question is based upon the same method as all of the property of similar nature in this area and, further, that the objection is not in accordance with facts and that the assessment is a just and an equitable one."

Therefore be it

Resolved, That this Board hereby concurs in the recommendation of the Director above recited, be it further

Resolved, That said final assessment map and the report as filed by the Commissioners of Assessment on the 18th day of November, 1924, and the said assessment thereon shown be and the same are hereby confirmed and that the City Clerk be directed to file the same with the City Collector for collection; and be it further

Resolved, That said assessment may be paid in a period of five (5) years dating from the day that the same shall be filed with the City Collector by the City Clerk, and said assessment and balances of installments shall bear legal interest thereon; the party assessed nevertheless shall have the privilege of paying the whole of any assessment or any balance of installments with accrued interest thereon at one time.

J., belonging to the estate of Stephen B. Vreeland, deceased, filed December 31, 1896, in the Register's office of Hudson County as Map No. 1139, and Avenue E as it existed as a public highway prior to the making and filing of the maps aforesaid.

Whereas, application of Joseph Dormer, owner of property Lots 12 and 13, Block 1273½, 270 Cator Avenue, to erect two car garage in the rear of said lots, having been denied by the Zoning Commission of Jersey City for the reason that it is contrary to the zoning ordinance and on appeal on the said zone law having been taken to this board, and the same having been referred to the Director of Streets and Public Improvements for his investigation and report and he having made said report and recommending therein that the same be denied for the reasons therein stated; it is therefore

Resolved, That the said application above set out on appeal to this board be denied on account of the extra fire hazard entailed in the erection of said garage in the immediate and close proximity to frame tenement buildings that back up upon same from the boulevard, and that it is also contrary to the provisions of the zoning act of Jersey City in that a garage shall not be built on a vacant lot in a residential section, and that the Superintendent of Buildings be advised accordingly.

Whereas, Christian Bruene, of 581 Ocean Avenue, enlisted into the United States Army under date of August 4, 1908, at Fort Slocum, N. Y., and honorably discharged under date of August 5, 1911, at Fort Gutle, R. I., has been assessed for personal taxes against his place of business located 581 Ocean Avenue and assessed under the name of National Wet Wash Company as per book 7, page 204, block 1303; and,

Whereas, Chapter 46 of the Laws of 1919 confers the power on this Commission to exempt taxes from State, County and Municipal Taxation to all honorably discharged soldiers, sailors and marines to a valuation not exceeding five hundred dollars ($500.00); and,

Whereas, The said Christian Bruene has shown to the satisfaction of this Commission that he is entitled to the privilege of said exemption; therefore, be it

Resolved, That the veterans' exemption allowance of $500.00 be granted him against his personal taxes for the years 1923 and 1924, as follows:

Year, 1923; tax, $13.16; to be cancelled, $13.16. Year, 1924; tax, $36.05; to be cancelled, $18.03. Balance due, $18.02.

Whereas, through error of the Tax Office a personal tax assessment for the year 1917 was levied against the Hudson Oil & Supply Co. of 49 Hudson Street at a valuation of $8,000, or $168.00 in taxes as per book 1, page 21, block 34; and

Whereas, on June 25, 1924, under protest the said Hudson Oil & Supply Co. paid the sum of $188.99 namely: $127.25 balance, plus $57.72 accrued interest, $3.82 collector's fees and $.20 advertising charges for the said 1917 personal tax balance as entered in cash book "D," page 965; and

Whereas, during the said year 1917 James F. Gannon, who was Commissioner of the Department of Revenue and Finance at that time, agreed to a reduction of said assessment from $8,000 to $3,000 as per affidavit of James J. Gannon on file in this office and upon which reduction the said Hudson Oil & Supply Co. made payment against; and

Whereas, it appears from the records of this office that the City Collector was never notified about said reduction, having been granted by Commissioner Gannon in the year 1917, therefore the said 1917 personal tax balance of $217.25 was carried forward and upon the collection of personal taxes in arrears it was found that this balance was unpaid, the payment of which was forced by the City Collector under a Tax Levy; and

Whereas, Mr. Jarvis F. Underhill, of 150 Belmont Avenue, Jersey City, New Jersey, Treasurer of the Hudson Oil & Supply Co., of 49 Hudson Street,

Jersey City, N. J., under oath makes affidavit to the effect that the aforesaid assessment was erroneously levied and the Commissioners of Jersey City are about to make refund to the said Hudson Oil & Supply Co. for taxes on said erroneous assessment as aforesaid, and will indemnify and save harmless the said Commissioners of Jersey City from any loss arising out of said refund and payment; therefore be it

Whereas, The Director of Streets and Public Improvements has notified this Board that he has been advised by Chief Engineer Charles A. Van Keuran that the manner of laying the 36-inch vitrified pipe sewer in Bergen Avenue as originally shown on plan and profile annexed to the contract which was awarded to Alfonso Lettieri & Son on the 7th day of April, 1925, cannot be laid as therein shown, but must be laid to a new line, and that the said Chief Engineer advises that the practical way would be to move the sewer from the line as originally set down, which is shown upon said plan as being west of old curb line—to the east side of the present curb and under present sidewalk where there are no obstructions whatsoever. The present water pipe and gas pipe that is thought to be parallel with the original line has been found, as a matter of fact, to run irregularly and therefore interferes with the practical laying of his water pipe, therefore be it

Resolved, That upon the recommendation of the Chief Engineer and the approval of the Director of Streets and Public Improvements, the contractor, Alfonso Lettieri & Son, be, and they are hereby authorized to change the method of laying said sewer from that which is shown upon the plan and profile annexed to the contract to the one hereto annexed and which shows said sewer as running east of the present curb and under the present sidewalk; all of which is to be done without any additional cost to the City of Jersey City, and that said contract shall be amended according to the tenure of this agreement and that a copy of this resolution shall be signed by the contractor signifying the said contractor's acceptance of the same.

At this time Mayor Frank Hague submitted the following statement, which was read and ordered spread in full on the minutes:

On behalf of the Members of the Board of Commissioners as well as for yourself, I find it difficult to express to the people of the City our gratitude for the splendid vote given to the Members of this Board at the recent election.

The presence this afternoon of so many people on the occasion of the inauguration of the Commissioners for their new term is indicative of the real interest the people of this community take in their civic affairs. The attendance of so many women we regard as an approval of the extension and development of the educational and social service features of our city government in which women are so intensely interested and quite properly so. We are very grateful to all the people of the city for the support given to us in the election and we trust that in the ensuing four years the administration will be one that will justify such support.

Four years ago a rather complete program of proposed public improvements was adopted, most of which have been completed. Some of the projected matters have not been taken up and finished principally because of the desire of the Board of Commissioners to keep the expenses of the City within reasonable bounds, and partly because of the fact that the results of changes in our municipal life attendant upon the progress of population toward the western heights of the city, the construction of the vehicular tunnel, have not sufficiently developed in their trend as to justify the adoption of a definite policy with respect to improvements.

With respect to its water supply, the City's program is practically completed, with the exception of the development of additional reservoirs. The means of transporting a sufficient and adequate suppy of water into the city have been finished; the purity and potability of the water supply amply protected through the trunk sewer about to be finished. We hope during the next administration to develop the remaining lands owned by the city as additional reservoirs or storage facilities.

The libraries, schools and hospital service of the city have been greatly amplified and extended in the past four years, and as the needs of the city increase in respect of such service additional facilities will be provided.

The high standard set in the police and fire departments has been maintained. Numerous improvements in methods instituted, the increasing traffic problems met and handled, and every step taken to preserve the greatest efficiency.

The playground and park system of the city has likewise been developed during the past administration. Pershing Field has become a notable institution in the eastern section of the country, it being without duplication. The Board of Commissioners will spare no effort to maintain the present beauty and utility of the park and playground system.

We will keep abreast of the changing needs and necessities of the whole city, the lower section as well as the heights and provide therefore; comprehensive improvements on a broad scale will be projected as the changes in methods of transportation and means of communication with the great metropolis make their effect more definite and certain. As the results of the opening of the Vehicular Tunnel evidence themselves they will be analyzed and studied to the end that full advantage may be taken of what will no doubt prove to be a great boom to Jersey City.

Respectfully submitted,

(S) FRANK HAGUE,
Mayor.

There being no further business before the Board, on motion of Commissioner Quinn, the meeting adjourned.

Whereas, property known as lot 2 in block 1402 on Princeton Avenue assessed in the name of the Passaic Valley Sewerage Commission was sold in Tax Sale No. 57 held March 22, 1918, as per Certificate of Sale No. 7632 to the Mayor and Alderman of Jersey City in the sum of $15.40 covering the unpaid taxes for the years 1914 and 1915 and costs; and

Whereas, the said Passaic Valley Sewerage Commission took a Writ of Certiorari against the City of Jersey City and that the Supreme Court affirmed the City's position. The Court of Appeals in the cast just referred to reverse the Supreme Court and in a long opinion delivered by Justice Kalisch he held that this property was neither taxable under the 1903 Act or the 1910 Amendment. The Court of Appeals said, among other things, that under the 1903 Act it is manifest that the Board of Commissioners of the Passaic Valley Sewerage Commission is an arm of the State to achieve public purposes in which the State is interested and therefore under the Act of 1903, wherein property of the United States, of the State of New Jersey, and of the respective Counties, School districts and taxing districts if used for public purposes are exempt, the Court held that for the purpose for which this land was used and the manner of financing the acquisition of the same, that this arm of the State was equivalent to a taxing district in law; and

Whereas, the other point raised, namely, that under the Act of 1910 all lands, etc., used for the protection of a public water supply shall be subject to taxation, the Court held that this was not land used for the protection of public water supply, but on the contrary was used solely for the purpose of constructing an intercepting sewer to relieve the Passaic River from pollution; and

Whereas, due to the above mentioned facts, these taxes for the years 1914 and 1915 should have been exempt from taxation; therefore be it
